**FIRST CONNECT
HEALTH SERVICES**

Brain Mapping

First Connect Health Services uses an emerging technology called **NeuralScan** to perform an at-home “lab test” for the brain that assesses potential cognitive disorders.

The procedure takes simply **25 minutes** and is **non-invasive**, assisting the physician with evaluating the patient’s condition and changes.

NeuralScan can identify/assess:

- Cognitive functionality
- Brain activity after a stroke
- Physiological function associated with memory loss, attention, anxiety, and sleep disorder
- Depression vs. Dementia
- Other brain related conditions

Wound Care

Our Wound Care treatment helps prevent and manage infections, debride wounds, and manage wound pain with the care of top licensed medical professionals.

First Connect’s doctors provide in-home assessment and treatment, allowing you to recover without travel.

We treat wounds regarding:

- Pressure Injuries
- Ulcers
- Arterial Wounds
- Diabetic foot wounds
- Skin Tears
- Moisture-associated Skin Damage (MASD)
- General Wounds

Podiatry

Your feet do a lot of work, and we can help by giving them the care they deserve. We specialize in podiatry and foot care for all ages.

Podiatry checkups are in home, quick, and provide feedback right away, offering the highest quality in care for your feet.

Our podiatrists can treat:

- Fractures and sprains
- Bunions and Hammertoes
- Nail Disorders
- Diabetes
- Arthritis
- Growing Pains
- Heel Pains
- Morton’s Neuroma
- Other foot related injuries
